**Sonia & Bob Mitchell:** Loving Father give us your strength to be our guide in these uncertain times. We pray for our families and friends and for those in our neighbourhood and especially those living on their own. We give thanks for the community spirit provided by volunteers to help with shopping, deliver hot meals and to be a friendly voice on the telephone. We are grateful for modern technology so that we can "zoom" into church services on-line or hold virtual meetings so that life can go on. May we use our time carefully during this slower pace to appreciate God's presence around us and enjoy listening to the various birdsongs in our gardens, admire the opening of new flowers and being part of your glorious kingdom. Amen.

**Barry Sparks:** My last prayer for the prayer diary was written in late February when Covid 19 had not taken a grip on the country/world. Since then we have experienced very different times and our whole way of life has been turned upside down. However, some things remain the same and we can thank God for that. We still have the beautiful countryside around us and glorious weather to enjoy it. We can now meet people from other households albeit at a distance and in an open space but it gives us chance to re-engage with community. Life may have changed significantly from what it was, hopefully for the better, with more tolerance and support for our family members and those around us. We don't know how long this change will last but we can all use it to re-assess what is really important in our lives and how the simple things, that were taken for granted, begin to command greater respect and significance. Let us pray that we learn from this experience and thank God for his grace that we come through unscathed.
